

Bondexpo**Bondexpo**Die Fachmesse für
industrielle Klebtechnologie**Neue Messe Stuttgart****Commodities Index, Bondexpo**

3501	Raw materials for adhesives and sealants
350101	Additives
350102	Bulking agents
350103	Dyes
350104	Hardeners
350107	Adhesion promoters
350108	PUR dispersion
350109	PUR raw materials for adhesives
350110	Polymers
350111	Rheological additives
350112	Tackifiers
350113	UV curing raw materials
350116	Encapsulating compounds
350117	Vulcanizers
350121	Miscellaneous raw materials
3502	Machines, systems and accessories for the adhesives manufacturing industry
350201	Systems for manufacturing hot melt adhesives
350202	Filtration technology
350204	Laboratory machines
350205	Kneading and mixing aggregates
350211	Miscellaneous machines, systems and accessories
3503	Adhesives, sealants and adhesive tapes
350301	Polyurethane adhesives (PUR)
350302	Epoxy resin adhesives (EP adhesives)
350303	Electronics adhesives, general
350304	UV curing adhesives
350306	Anaerobic curing adhesives
350307	Cyanacrylate adhesives
350308	Hot melt adhesives
350311	Plastisol adhesives
350312	Transfer adhesives
350315	Single component adhesives, general
350316	Two component adhesives, general
350317	Reactive adhesives, general
350318	Pressure-sensitive adhesives, general
350319	Contact adhesives, general
350320	Dispersion adhesives, general
350327	Miscellaneous adhesives
350328	Technical adhesive tapes
350329	Double sided adhesive tapes
350331	Stamped parts
350336	Miscellaneous adhesive tapes
350337	Labels
350340	Chemically reactive sealants
350342	Reactive sealants

350346	Miscellaneous sealants
3504	Machines, systems, application-equipment and accessories for the adhesive and adhesive tape processing industry
350401	Dosing and mixing systems
350402	Industrial robots for bonding and sealing
350405	Glue guns / applicator guns
350406	Automatic sprayers for applying adhesives
350409	Hot melt adhesive application systems
350412	Adhesive applications systems, general
350413	Low-pressure encapsulation technology
350420	Encapsulating systems, general
350425	UV sources
350428	Low-pressure plasma systems
350429	Atmospheric plasma systems
350432	Plasma systems, general
350435	Pre-treatment systems
350436	Cleaning systems
350439	Conveyor systems, pumps
350440	Kneading systems
350442	Adhesive tape processing machines
350445	Consumable material such as cartridges, needles, nozzles, cups and stirrers
350451	Miscellaneous machines, systems and accessories
350452	Curing-Systems
3505	Measuring and test technology
350501	Optical testing
350503	Materials and components testing
350504	UV testing
350510	Miscellaneous measuring and test technology
3506	Services
350601	Job-shop filling services
350602	Job-shop manufacturing services
350607	Research and development
350611	Miscellaneous services
3507	Organisations
350701	Associations
350702	Publishers
350705	Technical information
350706	Continuing education
350710	Miscellaneous organisations
3508	Sealing technology
350801	Sealing technology materials
350802	Sealing systems, static and dynamic
350803	Semi-finished seals
350804	Profiles and mouldings (elastomer)
350805	Sealing technology machines/equipment
